

Meet Adele, our channel partner in the Dominican Republic

Adele's story and her passion for play have been embraced by many. Adele Colon Lefranc is the founder of ACL Projects, a new member of Lappset Channel Partners in the Dominican Republic, bringing the best playgrounds to life so that children can have a safe place to explore and take risks while having fun.

Adele's inspiring story began when she took her twins to their favourite park in Barcelona, just two blocks from their home every afternoon. On one of these trips, her two-year-old daughter fell while crossing one of the balancing bridges – but it only strengthened her determination to finish what she had started! Adele fell in love with Lappset's equipment and decided they'd be perfect back home in the Dominican Republic.

At that time, she worked as an architect and had a great passion for design. Determined to make her dream a reality, Adele called Lappset and soon began work on the first project: Casa de Campo. As her children took her to another field of business, she had never thought of before. Adele is now building a legacy for them by combining work and play. She works with playgrounds, sometimes asking their opinions of the projects she's involved in and dreams of bringing them to Lapland so they can meet Santa Claus and Lappset factory themselves. Her reward is that her two kids watch intently while they absorb every lesson in their mother's work – one day, maybe even becoming part of it!

To Adele, the best thing you can do in life is play; she remembers jumping from roof to roof as a child and understands that kids need to take risks when playing. Originally from Puerto Rico, Adele was raised in the Dominican Republic before moving to Barcelona at age 22. Thankfully nowadays, people have gotten used to the fact that they can do meetings over distance – something that can be managed even from continent to continent.

Adele's story is an inspiring example of how taking risks can lead to professional and personal success.

Warm welcome to the Lappset family Adele and team [ACL Projects](#)!
